Susan Sprinkle-Vincent, AAS, RT(R)(M)

**Susan Sprinkle-Vincent, AAS, RT(R)(M)**, Director of Mammography Services/Consultant for Mammography is an internationally known expert in the field of mammography with years of experience performing and teaching mammography. She was previously an instructor associated with the continuing education program cosponsored by the National Cancer Institute and American College of Radiology. Susan was the Project Director of Mammography at the University of Texas M.D. Anderson Cancer Clinic. She joined the AHEC team in 2000 to expand the mammography educational services and to build a new division to assist AHEC's clients with mammography consulting services. Susan is widely known for her expertise in the clinical aspects of mammography and her technical skills. She continues to actively teach technologists, residents, and physicians the finer details of this highly technical field. Susan's desire to share her knowledge with others has led to another amazing experience at AHEC.

### What people are saying about Susan Sprinkle-Vincent's services:

On Saturday, August 16, 2008, Laborde Diagnostics hosted a mammography seminar led by Susan Sprinkle-Vincent. We had 16 mammographers from across the state of Louisiana attending. Susan had the most informative slide presentation on all aspects of mammography. Very concise and engaging with the attendees. She had a great sense of humor as well which was so refreshing. At the end of the day Susan demonstrated a hands-on in positioning in the mammo room. Everyone came away with a fresh sense of enthusiasm. On Monday we spoke to our leading physician about the positive outcome of the meeting and we all agreed to make this an annual meeting at our facility. Thanks to Susan and AHEC!

~ Susan Cobb, RT(R)(M) at Laborde Diagnostics in Lafayette, LA

Help is just a phone call away. Our commitment is to improve your mammography practice with hands-on for phantom analysis, viewbox image review, positioning skills evaluation, and equipment applications including technique charts. Call today to schedule your site visit!
